

How to Download Student Performance ISRs in Bulk

1. Please note: The PDF download of the Student Performance ISR may differ in layout and formatting from the finalized static Report Assets ISR PDF, which will be available to the field no later than 6/4/26.
 - a. Student Performance ISRs may be accessed in ADAM via the following path:
 - i. Reporting > Performance > select Test Name > drill down your scope (if necessary) via the Performance Comparison Scope column to the school level > (from school level) select ellipsis > Student Performance > (from student level) select ellipses > View ISR > Print (to print paper copy or download PDF).
 - b. Report Asset ISRs may be accessed in ADAM via the following path (when made available no later than 6/4/26):
 - i. Reporting > Report Assets > drill down your scope (if necessary) via the My Scopes tab to the school level > (from school level) select ellipses > Select Files > select the download button in the left of the Individual Student Reports row.
2. Before downloading bulk Student Performance ISRs from ADAM, ensure you are assigned one of the following roles:
 - a. State (HQ) Administrator
 - b. State (HQ) Reporting Administrator
 - c. District Administrator
 - d. District Reporting Administrator
 - e. District Test Coordinator
 - f. School Test Coordinator.
3. Login to ADAM and from the left-hand menu select Reporting > Performance.

4. From the Performance Dashboard select the ISR Export button near the top of the page.

5. In the Individual Student Report Export pop-up window, select your desired filters from the dropdown menus. School is the only required field; all others are optional. Select the blue Export button after filtering to download the results.
- Note: Exported filenames will automatically include the student's SSID for easy identification, followed by an underscore and additional identifying numbers.

Individual Student Report Export

Program: Spring 2026

Select School: [Select School]

Select Test Grades: [Select Test Grades]

Select Teachers: [Select Teachers]

Select Classes: [Select Classes]

Combine Files Option

Cancel [Export]

6. To export all ISRs into a single file, enable the Combine Files toggle located below the dropdown menus. Select the blue Export button after filtering.
